To update exporter profile in Quick Scan Pro with correct (MyPortal) login information

1. Click on the menu option Scan -> New Batch or click on the icon New Batch as follows:

2. The list of existing scan profiles will show up as follows:

		New Batch				×						
		Profile										
		Profile		Туре	^ <u>A</u> dd							
		DeepaB-F-ID		Public								
		DeepaB-S-ID		Public	Edit							
		Grayscale JPEG		Public	-							
				•	Delete							
		Produces binary image color or shades of grad	es in TIFF format on ay in the scanned of the scanned of th	with Group 4 c document will b	ompression. Any Ape lost.							
		Batch		Next								
		© <u>N</u> ew			2							
		Continue batch		Docu <u>m</u> ent:	-							
		Custom batch		Page:	1							
		Path: C:\T	Temp		Browse

								Primary	File type:	TIFF (*.TIF)	<u>^</u>	
									Color format: Compression:	Binary CCITT Group 4	=	
								5	Scan type: OPI:	Black and White 200		
											v	
4.	Click on Export						· · · ·					_
••										OK Can	cel Help	

The list of existing export profiles will display as follows, highlighting the exporter associated with your (currently selected) scan profile:

Scan Profile Editor		×
General Scan Image Format and Naming Image Processing OCR Index	Auto export Off After the scan Before the batch doses	
⇒ Export	Profile	
Batch	Profile Type Add.	
	<pre><new configuration="" exporter=""> Deepa8-F-ID Public Deepa8-S-ID Public Deepa8-S-ID-export Public Sample Batch Processing f Abort export if index fields have incorrect values</new></pre>	·· te
<		
	OK Cancel	Help

<u>Note</u>: Make sure that you don't click on any of the other export profiles, as doing so would change the exporter associated with your scan profile

5. Click on Edit; the General tab showing the name of the exporter displays as follows:

	Export Profile Editor	×
	General Configuration	
	Profile name: DeepaB-S-ID	-
	Description:	
		^
	Profile type:	
	Public Private	
	/	
/		
'		
	OK Cancel He	.lp
1	<u></u>	

6. Click on the Configuration tab and wait for the validation process to run in the background, do NOT click on anything.

Updating Exporter Profile in QSP

You are now returned to the Scan Profile Editor, with your exporter profile highlighted:

Again, make sure that you don't click on any of the other export profiles as doing so would change the exporter associated with your (currently selected) scan profile

12. Click on OK

Scan Profile Editor			×
