Ref #	Date Identified	Reported By	Activity/Issue	Needed By	Priority	Lead/ Owner	Verified/ Tested By:	Category	Status	Approved Completion By:
2	3/21/12	Project Agenda	Need to decide acceptable down time for e-mail/calendaring	5/2/12	Critical	Chien	Sharon, Fred	Conversion/ Migration	Pending	
7	4/19/12	Project Agenda	Document Exchange Environment	5/18/12	Low	Vartan		Conversion/ Migration	Pending	
12	5/2/12	Sharon	We anticipate that there will be items unique to FHDA and further training is/will be made available at additional cost. What is the recommendation for formal training for our sys admins and application admins? It is unclear what training will be made available to the 'application' administration role and who will have the role of managing the resources (conference rooms and the moderators of those resources, if any) and the District calendar - holidays etc.	6/15/12	Moderate	Vartan		Deployment/ User Experience	Pending	
13	5/10/12	Project Agenda	Proposal coming from the college - we need to update the current web mail link and splash page to give users sufficient notice for transition to the new OWA. Suggestion to put a short but prominent message to warn user the conversion is coming and a link to the web site. - Norbert can post an alert on Web-mail. Susan to draft a statement for Chien's approval. Tom will have Norbert post it.	5/21/12	Moderate	Chien		Communication	In-Progress	
19	5/16/12	Project Agenda	Decided on Backup method - Tom - We have decided that the Zenith appliance is the appropriate solution for implementing a data backup & recovery process for the Exchange platform. Assume you will work with STA on acquiring the appropriately sized appliance for the FHDA/Exchange platform. It is my understanding that our support agreement with STA contains obtaining STA professional services assistance from STA to install and configure the Zenith if we determine we need their help – please confirm.	6/6/12	Moderate	Chien	Rob	Technology	In-Progress

20	5/16/12	Project Agenda	Stress testing of I/O and overall performance is required before going into final testing and production. Vartan suggests using Microsoft Jetstress utility http://technet.microsoft.com/en-us/library/ff706601.aspx . Using matrices Tom has used in the past and tools available in Exchange. A series of measurements will be applied and results available for review on 5/25/12. Vartan - Discussed with Tom and team briefly 6/4/12. We agree it is important, but we are short on resources right now. Adding another STA body doesn't help because Ryan and Norbert are also tied up with projects.	6/15/12	Critical	Vartan	Tom, Norbert, Ryan, Chien	Technology	In-Progress	
31	5/26/12	Sharon	Quota and retention, set up warning message for initial conversion and what is the limitation of size of mail box	5/31/12	Moderate	Chien	Vartan	Deployment/ User Experience	Pending	
37	5/26/12	Chien	Update documentation with changes for training	On-going	Moderate	Susan		Deployment/ User Experience	In-Progress	
45	5/26/12	Sharon	Under Options - My Account - On the right hand side are Shortcuts to other things you can do: - Connect Outlook to this Account - I assume this is the Desktop Client - We don't want users to go down this path for the client, at least this is what I assume. - Learn how to get Direct Push email on your mobile phone - I don't believe these are the instructions we want the users to use for setting up their mobile devices, correct? - Here is the "Change Your Password" capability again - I don't believe this is the path to changing our passwords. Is there any way to hide these "Shortcuts to other things" under "My Account" under "Options"? This is going to trip up a lot of users. We will be getting calls about this. Vartan - Needs further discussion Project Meeting. - Decision 6/6/12 turn off.	6/15/12	Moderate	Vartan	Susan	Deployment/ User Experience	In-Progress	
46	5/26/12	Sharon	Options is managing cell phones - and one thing you can do is add your phone and then remotely WIPE all contents on your phone. This is HIGHLY dangerous for a novice user. Vartan - Related (same) as item 45 above	6/15/12	Moderate	Vartan	Susan	Deployment/ User Experience	In-Progress

56	5/29/12	Sharon	District Holidays - will there be a District Group Calendar available for all to view? Or will a template calendar be set up as the basis for everyone's calendar so the District holidays show up? It was like this in Meeting Maker - Add to Crosswalk doc - research method before adding to Crosswalk or documentation	6/30/12	Moderate	Vartan	Sharon, Susan,	Deployment/ User Experience	Pending	
59	5/29/12	Sharon	Add to Crosswalk: how to access FHDA directory Add to Crosswalk how to add a contact Add to Crosswalk how have BCC show - its under the Options for mail Add instruction to Crosswalk Spell Check capability in Safari and Chrome with suggested correct words Add to crosswalk differences with the "Signature" between browsers Cross walk must describe the password reset process	6/5/12	Moderate	Sharon	Susan	Deployment/ User Experience	Pending	
61	5/29/12	Sharon	Probably a new FAQ item - talk about the export in Meeting Maker that can import into an Outlook Desktop Client - this really isn't the best way since you still have to invite all the attendees and the conference room. And you need to verify reoccurring meetings have been migrated and if you miss setting up a meeting properly, it may cause a productivity problem.	6/15/12	Moderate	Sharon	Susan	Deployment/ User Experience	In-Progress	
63	5/29/12	Sharon	Comparing Meeting Maker Department Calendars with Department Email accounts - remove duplicates - add Meeting Maker Dept. accounts to Tom Roza's Deployment lists	6/1/12	Critical	Sharon	Josie	Deployment/ User Experience	In-Progress	
68	5/29/12	Sharon	Write up instructions for user who may have the correct combination of OS, current mail client, and Outlook Desktop client to be able to migrate their email and contacts themselves using the provided instructions. If get into trouble will need to contact call Center and get on the Opt In Schedule	6/4/12	Critical	Sharon		Deployment/ User Experience	In-Progress	
76	5/31/12	Fred	I just tested OWA (light version) calendar functionality with Chrome and it's buggy. Does not let me invite several people to an appointment. Also the formatting is a bit off. Works fine in Firefox. Perhaps we should not recommend using Chrome with light OWA. Update: I just checked the same problems to see if the full version of OWA used with Chrome has issues and I found it to be working fine. It's appears to just be the light version of OWA with Chrome that has issues. - need to add information FAQ		Moderate	Susan		Deployment/ User Experience	Pending

Ref #	Date Identified	Reported By	Activity/Issue	Needed By	Priority	Lead/ Owner	Verified/ Tested By:	Category	Status	Approved Completion By:
81	6/1/12	Chien	<p>Ryan - Since our mail attachment maximum size was lowered down to 2MB, errors will occur during the importing of messages that exceed this limit. I had about 20 errors related to this. I am guessing Daniel used email extensively to receive or transfer files.</p> <p>Chien - Good point, Ryan, this will interrupt our conversion and slow things down. Should we increase the size of attachment for conversion and lower it down later? I like to add this to our issue list for discussion.</p> <p>Sharon - I was under the impression the attachment size was to stay the same as what is currently on Sendmail and would address the attachment size threshold at a later date. This way we would not disrupt any District business.</p> <p>Jack - I will add this to the issues list. However, I believe Sharon is correct. We talked about dropping it to 2MB then decided to size later. – Phase two item. - remove restriction until more research is</p>	6/8/12	Moderate	Chien	Sharon, Ryan, Fred, Norbert, Tom	Deployment/ User Experience	In-Progress	
84	6/4/12	Chien	<p>Load Balancer Direction from technology meeting :</p> <ul style="list-style-type: none"> • Needs to be separated and isolated; currently using Microsoft load balancer software. • Zeus is a better option (hardware). <ul style="list-style-type: none"> o Will need a server platform for second Zeus load balancer; have universal license with EIS load balancer. (Norbert is assigned to build it) o Put ports onto load balancer. o Change DNS pointer; remove load balancer – will need control outage window. (Tom and Lisa) o Norbert will begin building server platform. 	6/15/12	Critical	Tom	Norbert, Ryan, Tom, Vartan	Technology	In-Progress	
85	6/4/12	Chien	<p>Direction to improve conversion speed from technology meeting:</p> <ul style="list-style-type: none"> o Have 20 command windows opened with no more than 500 items; any more would bog down system. o Test this weekend with Super User conversion. o Decision is made by the team to clone Sendmail to another database, and will start to migrate the larger group early of the schedule in a daily basis. - 6/7/12 Sendmail clone completed. 	6/8/12	Critical	Tom	Tom, Norbert, Ryan, Chien	Conversion/ Migration	In-Progress	
86	6/4/12	Sharon Luciw	<p>Apple Outlook Desktop client you cannot set up a Return Receipt - MS left this feature out. Does exist on the Windows client - Need to add to FAQ</p>	6/11/12	Moderate	Susan	Sharon	Deployment/ User Experience	Pending

87	6/4/12	Sharon Luciw	Cannot set up to BCC self always in the Apple Outlook 2010 Desktop client. OX 10.6 - Need to add to FAQ	6/11/12	Moderate	Susan	Sharon	Deployment/ User Experience	Pending	
88	6/4/12	Kam Chedid	Windows Outlook Desktop Client - configure the client and it appears to verify -set up the connector and then the application will not launch. Windows 32bit; Outlook desktop client 2010; Windows XP and Outlook 2010; and Windows 7 64 bit - Need to review and verify documentation.		Moderate	Sharon	Susan, Ryan	Conversion/ Migration	In-Progress	
89	6/4/12	Kim Winn	Firefox 8 on Apple - cannot open attachments - Needs verification test and possible FAQ also check other browsers.	6/15/12	Moderate	Sharon	John V.	Deployment/ User Experience	In-Progress	
91	6/4/12	Sharon	Can't get to Exchange on wireless network on De Anza College wireless Need to verify and DA visitor working.	6/15/12	Moderate	John V.		Deployment/ User Experience	In-Progress	
92	6/4/12	Victor Baliguat	OWA new email, click on address book; search for name, right click on name on right side of address book window and cannot copy and paste into the email TO address box; see item 49 John Vandercook and browser froze. In Safari, right click on name and opens a new email message to send to the individual Safari did not freeze with Safari version 5.0.6 - Firefox upgrade or Safari - Needs verification test and possible FAQ also check other browsers.	6/15/12	Moderate	Sharon	John v	Deployment/ User Experience	In-Progress	
93	6/4/12	John V.	OWA Firefox 12 on a Mac 10.5.8- new email, clicked on address book, typed name to search in box, double-click on highlighted yellow and the browser froze. - Needs verification test and possible FAQ also check other browsers.	6/15/12	Moderate			Deployment/ User Experience	Pending	
94	6/4/12	Terry Rowe	Sent an email to a bad district email address (spelled sharon luciw's name wrong) and has yet to receive notification that it was a bad address that he sent to - no bounce message yet. Not even a warning that there are invalid addresses. - Need to research cause. Others are receiving errors back when the address is wrong.	6/11/12	Critical	Tom	Norbert	Conversion/ Migration	Pending	
95	6/4/12	Shan Lu	OWA - folders were converted, but in her InBox - very old emails are missing. Only have email up to July 2010 nothing older.- User needs to have a ticket opened then research will be done to verify if folders were on the send mail server and not corrupted.		Moderate	Tom		Conversion/ Migration	In-Progress

96	6/4/12	Hoang Van	Has multiple folders that were not migrated to Exchange. - User needs to have a ticket opened then research will be done to verify if folders were on the send mail server and not corrupted.		Moderate	Tom		Conversion/ Migration	In-Progress	
97	6/4/12	Sharon	Sent items did not move over from Sendmail- I have sent items from May 25, 2012 and forward. - User needs to have a ticket opened then research will be done to verify if folders were on the send mail server and not corrupted.		Moderate	Tom		Conversion/ Migration	In-Progress	
98	6/4/12	Terry Rowe	Caching issue - same as in status email I sent out earlier today; no rooms in there yet. But we are still using Meeting Maker until we are all on Exchange; but his initial test it worked well. - Vartan is still working on a fix. Otherwise need documentation how to clear cache or ?????	6/11/12	Critical	Vartan	Matt, Sharon	Conversion/ Migration	In-Progress	
99	6/4/12	Terry Rowe	Under Firefox 10 on a Windows 64 bit 7, Java script error - under Options in OWA - If click on Organize email, it creates an error, Groups, Settings etc. too. For everything but the account tab produces an error. Java was just upgraded, version 10; doesn't occur under Firefox 12 - Needs verification test and possible FAQ also check other browsers.	6/15/12	Moderate	Sharon	Matt, Terry	Conversion/ Migration	Pending	
101	6/4/12	Jose Rueda	Not all District Blackberry smart phones are the same. Jose's blackberry set up asked for and Email Account. The only thing than worked was his first name. - Possible FAQ someone needs to research.		Moderate	Sharon		Deployment/ User Experience	Pending	
102	6/4/12	Josie Hernandez	XP and Firefox 12 and IE and could not scroll to see emails in the list. When viewing an email in the window at top are blue up and down arrows to go to next and previous emails -doesn't work. - Needs verification test and possible FAQ also check other browsers.	6/15/12	Moderate	Sharon		Deployment/ User Experience	Pending	
103	6/4/12	Josie Hernandez	XP and Firefox 12 - could not change the pane views in OWA from right, left, bottom. - Needs verification test and possible FAQ also check other browsers.	6/15/12	Moderate			Deployment/ User Experience	Pending	
104	6/4/12	Sharon	Reconsider turning on iMap - some cell phones; or the reason is because users may want to set up Thunderbird, Eudora, Apple mail and they will still need to go into OWA for their calendar and since that has email too it could confuse users. - Decision to turn iMap on 6/6/12.	6/6/12	Moderate	Tom	Vartan, Ryan, Norbert	Conversion/ Migration	Completed

Ref #	Date Identified	Reported By	Activity/Issue	Needed By	Priority	Lead/ Owner	Verified/ Tested By:	Category	Status	Approved Completion By:
105	6/5/12	Hoang Van	OWA has an option available to import contacts directly into OWA via a text file. Can we turn this OPTION on? - Verify if this is true, if so, turn on the option.	6/6/12	Critical	Sharon	Vartan	Conversion/ Migration	In-Progress	
106	6/5/12	Victor Baligat	In Windows Outlook 2010 Client, there is an option to download the District address book/directory to your local hard drive for use when offline. Right now he gets an error message when attempts to download the directory - is this something where we need to turn ON a feature/privilege on the server?		Low	Sharon	Vartan	Deployment/ User Experience	Pending	
107	6/5/12	Sharon for Javier Rueda	How do you change your Reply TO Address in OWA - documentation - Need to fix his account with proper id.		Low	Tom	Sharon	Deployment/ User Experience	Completed	
108	6/5/12	Sharon for Christina Espinosa-Pieb	Will my groups, contacts, lists in Webmail/Sendmail migrate to Exchange? Chien said no. Is there no way to do this? - Need FAQ.		Low	Sharon	Susan	Conversion/ Migration	In-Progress	
109	6/7/12	Ryan Anthony, Shan Lu	Shan Lu report not all contents of Sent folders migrated from Sendmail to Exchange. Tom to Vartan - I know you have advised that it will be somewhat of a hit and miss situation with copying the entire contents of people's Sendmail folders that they have created for themselves on the Sendmail server. I guess we will have to accept that and given that the vast majority of emails in these folders will in most cases never be referenced reduces the adverse impact. Of couses, we would prefer a 100% migratin success rate, but it is what it is. However, Ryan reported that he had entire folders that were not copied - that is more troubling. A few missing emails is one thing - not converting an entire folder or set of folders is another. Do you have any thoughts on this and what corrective action might be required?		Moderate	Vartan	Tom, Ryan	Conversion/ Migration	Pending
