

**FHDA Communion Suite - Implementation Project
Project Team - Questions and Answers**

3/29/2012

The intent of this document is the track to questions presented by the project team or users that are technical in nature.						
Any new items added to the list will be reviewed by the proper project team member and the answer recorded.						
Added	Milestone	Activity	Posed By:	Responsible for Answer	Answer	Move to Public Q&A
03/21/12	Architecture	How does Exchange Archive work and is additional software or hardware needed?	Fred	STA		
03/21/12	Conversion	Can a user's setup in client software (Outlook, Thunderbird or Eudora) override configuration at the server level? Such as IMAP vs. POP.	Chien	STA		
		Will Meeting Maker conference rooms and banners be moved to Exchange?	?		On agenda for discussion	No
03/21/12		How will Meeting Maker information be converted?	?		On agenda for discussion	No
03/21/12	Deployment	Is there a way to block a user account after so many attempts to access the system?	Tom	STA		
03/21/12		If so, is it configurable with auto reset time or security questions?	Jack	STA		
03/21/12	Functionality	Is there a map tool inside exchange that would be helpful?	Sharon	STA		
03/21/12		When a moderator is assigned to a resource (conference room) when they accept or reject use does it send notification back to the requestor.	Sharon	STA
